

Broke My Heart

[David Nail](#)

Just the way you float through a crowded room
With that long, tangled blonde hanging down
Just the way you move to the groove playing in my head
The soft of your lips, the touch of your hand
The being your man when it's time to go
Chorus:
Even if you'd never broke my heart
Even if you'd never broke my heart
I'd still be begging you to tear it apart
Even if you'd never broke my heart
If you were mine again by now
We'd be making out in the backseat of a city cab
We'd hit the floor just past the door 'cause we can't wait
Baby, we can't wait
It'd be the sun coming through
The window and you still being here
Repeat Chorus x3
Even if you'd never broke my heart
