

# I'm Safer On an Airplane

Copeland

it happened then, it happens now  
they let you in, they let you down  
and it feels like, we can't get out  
and it feels like, hell...i think i'm safer in an airplane,  
i think i'm safer with my lungs full of smoke  
i think i'm safer on the jet way,  
than a world without hope the day came in, the day went out  
and not a bit of peace was spoken about  
and it feels like, a suicidal world  
and it feels like, hell...i think i'm safer in an airplane,  
i think i'm safer if i run through the streets  
i think i'm safer on the jetway,  
than a world without peace oh, my arms will stretch out when they've had enough  
oh, when they're tired of holding up i think i'm safer on an airplane,  
i think i'm safer in the sky up above,  
i think i'm safer on the jetway,  
than a world without...i think i'm safer on an airplane,  
i think i'm safer in the sky up above  
i think i'm safer on the jetway,  
than a world without love.
