

# Slave (Homebake Festival 1996)

## Silverchair

Lived too long now you've come to take me too  
To place where I can't die.  
Lost my soul lost my confidence in me.  
Can't be something but I'll try.  
Lived too long and waited to just drown.  
In my self pity I keep falling down. Want to be your soldier  
Want to be your slave  
I have no pride in myself Only book that I own is called "How to Lose".  
Pick a chapter I know them all just choose.  
Lived too long and waited to find  
A place where I can die  
Lost my soul lost my confidence in me  
Give me something but I'll try Want to be your soldier  
Want to be your slave  
Have no pride in my self  
That's how I behave
