

# San Antonio Baby

[Raul Malo](#)

I can't begin to tell you what you're leavin's done to me  
I'm up all night and sleep all day and now everyone can see  
That my yesterdays meant nothing, that was long ago  
And if you think that nothing's changed  
Well, there's something you should know San Antonio baby, won't you please come back to me?  
The very thought of losing you has brought me to my knees  
I feel like a king but no longer royalty  
San Antonio baby, won't you please come back to me? And we could start all over, you would love me once  
again  
I'd hold you while I told you, I'd be faithful to the end  
No more empty promises, the Devil surely knows  
And he would have his way with me if you leave me all alone San Antonio baby, won't you please come back to  
me?  
The very thought of losing you has brought me to my knees  
I feel like a king but no longer royalty  
San Antonio baby, won't you please come back to me? San Antonio baby, won't you please come back to me?  
The very thought of losing you has brought me to my knees  
I feel like a king but no longer royalty  
San Antonio baby, won't you please come back to me? I feel like a king but no longer royalty  
San Antonio baby, won't you please come back to me?  
San Antonio baby, won't you please come back to me?
