

Clean Today

Katatonia

All the white lights falling The blue lights are falling
Night is warm
Came down with a promise
I have my best shirt on
I lower myself now
It is a way to forgot
Of last year's failure Will the streetlights reflect me well enough
Am I transparent when I am clean
Will the darkness around me be so strong
That there is no way I can be seen Boys will we become
Heroes of this night
Or am I just happy
Whenever not sober
I cleaned myself well
Clean today Will the streetlights reflect me well enough
Am I transparent when I am clean
Will the darkness around me be so strong
That there is no way I can be seen And when I pause for a breath
I see millions like me Will the streetlights reflect me well enough
Am I transparent when I am clean
Will the darkness around me be so strong
That there is no way I can be seen
