

# Evening Ceremony

## Active Child

Even if I wanted to love you  
Would you love me?  
Even if I wanted to fall for you,  
Would you fall for me?  
Even if I never meant to hurt you,  
Would you hurt me?  
Even if I wanted to pray for you Hold me, hold me close,  
Never let go  
Tell me what you need, and I promise I'll take control Even if I wanted to run with you,  
Would you run with me?  
Even if I wanted to hold you  
Even if I never meant to hurt you,  
Would you hurt me?  
Even if I wanted to pray for you. Holy, Holy ghost,  
Where have you gone?  
Middle of the night, I feel your presence taking control So many reasons that we could never get caught  
I tried to tell you but you didn't wanna stop  
I tried to tell you but you didn't  
I tried to tell you but you  
So many reasons that we could never get caught  
I tried to tell you but you didn't wanna stop  
I tried to tell you but you didn't  
I tried to tell you but you Hold me, hold me close,  
Never let go  
Tell me what you need, and I promise I'll take control Even if I wanted to love you  
Would you love me?  
Even if I wanted to fall for you,  
Would you fall for me?  
Even if I never meant to hurt you,  
Would you hurt me?  
Even if I wanted to pray for you
