Ponytail

Solid Afro

When my soul starts growing
When my soul starts growing
When my soul starts growing
I get so hungry and I wish it never
Never would, never would
Never would, never would
Never would
Never would stop growing
When my soul starts growing
When my soul starts growing
When my soul starts growing
I get get so full and I wish it never
Never would, never would
Never would, never would
Never would
Never would stop growing
When my soul starts growing
When my soul starts growing
When my soul starts growing
I am as I want to be and I know I never
Never will, never will
Never will, never will
Never will stop caring
