

# Reality

**Oliver Koletzki**

Until something's proven empirically,  
epistemological concepts at- or whatever your conceptual ideas,  
they have to make a juxtaposition with reality someplace,  
so that you know, by empirical evidence,  
that what you have said was reality  
is tested to be reality,  
and proven to be reality.  
[....some of the original text missing....]  
polarized as we are  
in the lower end of the socio-economic income picture,  
and they think that uh,  
they can reach down to our  
ra- drab existence and lift us up.
