

Fifteen Minutes

Breton

Alive, whatever happened to love?
It's everything you're told it was, thought it was, fall along the line
Alive, if nothing happened anyway
They tell me it's a healthy sign, a healthy sign, a healthy sign alive
Soothe the backs, return the cracks, return,
return, return
Say you're asking them again yourself
Soothe the backs, return the cracks, return, return, return
Say you're asking them again yourself
Alive, whatever happened to love?
It's everything you're told it was, thought it was, fall along the line
Alive, if nothing happened anyway
They tell me it's a healthy sign, a healthy sign, a healthy sign alive
Soothe the backs, return the cracks, return,
return, return
Say you're asking them again yourself
Soothe the backs, return the cracks, return, return, return
Say you're asking them again yourself
