Face

Bell X1

How I know
Go bow end send mend bend pretend
Shut your face again
Bleed seed need read breath on my knees
How I choose to breath
Lie cry learn grow slow false start
How I build my wall
Hate wait bait kiss or taste the place
And make weather in my faceHow I choose bruise loose win sin bin tease please
Better have her on her knees
Play pray say rock feel kneel dream
How I choose to scream
Shout wake sleep need to touch her deep
Change
Rearrange
Fate wait weight kiss or taste the place
And make weather in my faceI wanna be the only one that you know
Happily your placebo
I wanna be the only one that you know
Cos I adore you
I wanna be the only one that you know
Don't believe your placebo
I wanna be the only one that you know
