You And Me

Her Space Holiday

You and me we like to talk about that summer night you came over to my house and I sat there while you Told me everything all of your ups and downs and in betweens and I just thought to myselfHow could so much good exist in such a tiny heart despite of all the pain she's in she never falls apart
And if she does it lasts the length of seven songs she dries her tears on her best friend's sleeves And dances right alongIn a dream you called me up and asked me quietly if I would like to meet you for a drink but when I got there
You just looked at me as you spoke to yourself if you take me home tonight I know that we will kiss And one of us will fall in love and it will be a mess but if you want to take that chance then please just let me know
I slammed my glass down on the bar and said grab your coat lets goSo here we are we've come so farAnd I just thought to myself and I just thoughtHow could so much good exist in such a tiny heart despite of all the pain she's in she never falls apart
And if she does it lasts the length of seven songs she dries her tears on her best friend's sleeves and dances right along
