

# You And Me

## Her Space Holiday

You and me we like to talk about that summer night you came over to my house and I sat there while you  
Told me everything all of your ups and downs and in between and I just thought to myself How could so much  
good exist in such a tiny heart despite of all the pain she's in she never falls apart  
And if she does it lasts the length of seven songs she dries her tears on her best friend's sleeves  
And dances right along In a dream you called me up and asked me quietly if I would like to meet you for a drink  
but when I got there  
You just looked at me as you spoke to yourself if you take me home tonight I know that we will kiss  
And one of us will fall in love and it will be a mess but if you want to take that chance then please just let me  
know  
I slammed my glass down on the bar and said grab your coat lets go So here we are we've come so far And I just  
thought to myself and I just thought How could so much good exist in such a tiny heart despite of all the pain  
she's in she never falls apart  
And if she does it lasts the length of seven songs she dries her tears on her best friend's sleeves and dances right  
along
