

Special Forces

Electrasy

You were born with special forces
Looks to kill and a mouth that curses
When it hurts I want to take you down You were born so I could kiss you
Snort cocaine, I'll lick it off you
All the same, I want to take you down But I dream of someone else
Sometimes I hate myself
But I can't change myself
So now you've got me, got me, got me 'Cause I'm not your slave
But you treat me like an animal
You keep me tied down
And twisted on a chain of love I'm not your slave
But you keep me like a motor car
You keep me tied down
And twisted on a chain of love You may be pain but I don't regret you
Often still I can't respect you
All of me just wants to take you down The devil comes and the force is with you
Consideration has never been you
All the same, I want to take you down But I dream of someone else
Sometimes I hate myself
But I can't change myself
So now you've got me, got me, got me I'm not your slave
But you treat me like an animal
You keep me tied down
And twisted on a chain of love I'm not your slave
But you keep me like a motor car
You keep me tied down
And twisted on a chain of love Do what you want, you've got special forces
Do what you want, you've got special forces
Do what you want, you've got special forces Do what you want, you've got special forces
Do what you want, you've got special forces
Do what you want, you've got special forces I'm not your slave
But you treat me like an animal
You keep me tied down
And twisted on a chain of love I'm not your slave
But you keep me like a motor car
You keep me tied down
And twisted on a chain of love
