

Star Vampire

Rublood

We've never time
To remember
One star
Shining in the sky
I see you tonight
Take me back but
Please don't make me cry
One day talks about me
One night want to be like me(Well) You understand me
(Don't) Stop my emotions
(Feel) My heart and be happy
(Because) I haven't killed you
Yet... Yet...(Star) (Empire) (Vampire) (Take Me Out)
Became fashionable and
Your Light will not cease to shine
So they'll understand who I am
So they'll understand what it means to be a vampire(Well) Turn back centuries
(Don't) Stop loving me
(Star) If you can wait it
(Suck) Don't believe in GodWith the rain... I am undead
With the rain... I am undead
I reach your heart today
With the rain... I am undead
With the rain... I am undead
I find your heart...
Yet... Yet...Star Star Vampire...Watching me on TV
(Life) Feeling your respect
(Safe) Waiting in the dark
(Don't) Living wait meWith the rain... I am undead
With the rain... I am undead
I reach your heart today
With the rain... I am undead
With the rain... I am undead
And don't believe in God
