

Come Along With Me

Joe Sample & Lalah Hathaway

If you believe in love
And all that love can bring
A brand new day
A brand new way
When you make a case for it
Will you find a place for it
If you will, then come along with me.
If you believe in dreams
And making dreams come true
A wishing star
A magic jar
Can you breathe the wild in you
Can you be the child in you
If you can, then come along with me.
