

# Stay With Us

## Pinmonkey

Well Lord youve done everything youve said  
Everything that you said you would do  
You gave us food to eat and our health and strength too  
But were livin in such a mean old world  
Now misery and sadness are everywhere  
But sometimes it seems so hard to bearStay with us, dont leave us  
Dont leave us, I know well make it  
I know well make itNow everything seems to be going wrong  
But Lord I know youre gonna fix it before too long  
These are the times oh Lord of war and hate  
But oh you said that youd surly make a wayStay with us, dont leave us  
Dont leave us, I know well make it  
I know well make itWell just as long as you are by my side  
Oh just as long as you will be my guide  
Gonna keep on trusting upward every round  
Cause aint nobody gonna turn me aroundStay with us, dont leave us  
Dont leave us, I know well make it  
I know well make it  
Stay with us, dont leave us  
Dont leave us, I know well make it  
I know well make it  
Stay with us, stay with us  
Dont leave us, dont leave us  
Dont leave us, dont leave us  
I know well make it  
I know well make it
