

# 7 Demons

[Saybia](#)

Hold your breath  
Say no more  
You've spent the last few hours  
Condemning what I said  
What did I say?  
But I save the best for you  
No matter what you think is true  
And now 7 demons riding on my back  
Candle light  
And inner sight  
A perfect evening ruined  
Cancelled by a single word  
A single word  
But I save the best for you  
No matter what you think is true  
And now 7 demons riding on my back  
Get of my back  
I save the best for you  
No matter what you think is true  
And now 7 demons riding on my back  
I save the best for you  
No matter what you think is true  
And now 7 demons riding on my back  
Get of my back  
Get of my back
