## **Blood Bound**

## **Hammerfall**

Countdown, descending down to zero Bursting into flames Can't you see the coming of a hero On this enchanting daySo stand up and be counted In the solar glance, in the desert sand

No longer the hunted

United we are till the day we fall A chain unbreakable Every link is allied to our mighty vowWe're Blood Bound, we aim for the sun

The luminous moon will take us high over ground

We're Blood Bound, collecting the stars

We hold a power that is greater than all

We're Blood BoundWatch out, the heathens all around us

Always watch your back

We've got a lust for freedom

Whatever they say, we know, we'll stayWe are indestructible And no matter what happens, we will rise aboveWe're Blood Bound, we aim for the sun

The luminous moon will take us high over ground

We're Blood Bound, collecting the stars

We hold a power that is greater than all

We're Blood BoundLook into my eyes

Tell me what is hidden down deep inside

Chains about to break

It's the everlasting freedom for us allWe're Blood Bound, we aim for the sun

The luminous moon will take us high over ground

We're Blood Bound, collecting the stars

We hold a power togetherWe're Blood Bound, we aim for the sun

The luminous moon will take us high over ground

We're Blood Bound, collecting the stars

We hold a power together, Blood BoundPower forever, Blood Bound

Power, we're Blood Bound
