Can't Say

[All](#)

everythings broken, dont you cry. its not right and we both know why. you havent got the right, neither do i, cant say i blame you, cant deny im sorry. but its just no good, you said fuck you, i wish that i could. you hate me now but i'll never hate you. i cant say i blame you, i cant claim you now. cant change the past, its over and done. cant trust the future, it might never come. you cant trust me, i wish that you could. i cant say i blame you, cant deny im sorry. but its just no good, you said fuck you, i wish that i could. you hate me now but i'll never hate you. i cant say i blame you, i cant claim you. forget and forgive? somehow i dont think you will. i'll be ashamed as long as i live, but i cant go back and i cant stand still. cant change the past, 'cause its over and done. cant trust the future, it might never come. you cant trust me, i wish that i could. cant say i blame you anyway. everythings broken, dont you cry. its not right and we both know why. have a nice life, goodnight and goodbye. cant say i blame you, cant deny im sorry.
