Just Me

The Dirtball

It's just me

The only one that get my dirt done

And make my legs run underneath the hot sun

Just me

I'm motivating, dedicating

Stay hopping trouble

Bubble popping who be all the time dropping

Just me

A piggy bank breaker

A narc fund faker

An autumn leaf ranker

All along: it's just me

A green thumb grower

That can own a snow blower

For the winter storm

Warning on the watch

Just me

A man with the fam and a plan

Driving across the land

With the cash in my hand

Just me

Quite on the prowl

For act like an owl

I can see you barking loud

Keep it down

Trust me

It never pays in the ways of a hard bridge burner

With an attitude

All I do is

Be me

And keep it on the real

Coming with my own feel

Fight for your right

Man it ain't just me

I?m speaking for so many who be working for the penny on the dollar

Hear me holler

No baller

Just me

I?m only bust generous weather be a plus

When I?m coming through your town

What a sound

Just me

Another track spider I?m a wet woods splitter with a chainsaw

Reppin' the end up

Just me

A mountain peak rebel

Living at another level

With the large lung capacity

Just me

A poly sic major

Packing heat

On my street

In the middle of the desert

That is where you will find me

Setting boobie traps at my compound

Getting rubbed down by my fine girl

Her and just me

Cruzan' with my dog

In the front seat banngin' beats

On the river banks

It be just me

The only one who understand everything that be running through my head when I?m dead It be just me

A Raptillion who can run a marathon under the influence

Yo

That?s me

A Subnoize solider

I already told you

I?m going to hold it down

And it ain?t just me

We commin' super strong

With underground army

But for now I gotta put it down

For me

I?m like a bull tribe

With a mouth full of teeth

I?m going to strike if you trippin' on me

Just me

Stressed to the max

With the packs and the clicks that I hang with

And all I can be is

Just me

A fun loving criminal my gangster is subliminal Never let it slip or get away from me Flip 180
Then maybe you can see
Underneath it all
Lights, camera, shining
On me
