

Spaceman

Elizaveta

[Cover of Babylon Zoo's song]Spaceman
I always wanted you to go into space man
Pungent smells, they consummate my home

Beyond the black horizon

Trying to take control

See my girl, she shivers in her bones

The sun and zenith rising

Trying to take us all

There's a fire between us

So where is your god?

There's a fire between us

I can't get off the carousel

I can't get off this world

The sickening taste, homophobic jokes

Images of fascist folks

Beam me up cause I can't breathe

Spaceman

I always wanted you to go into space man

Its time to terminate this great white world

Morbid fascination

Television takes control

Decimation, different races fall

Electronic information

Tampers with your soul

There's a fire between us

So where is your god?

There's a fire between us

I can't get off the carousel

I can't get off this world

The sickening taste, homophobic jokes

Images of fascist folks

Beam me up cause I can't breathe

Spaceman

I always wanted you to go into space man

Spaceman

I always wanted you to go into space man

Spaceman

I always wanted you to go into space man

Spaceman
