

Stop, Look And Listen

Belle & Sebastian

I was walkin' down the street
Just the other day
I caught a glimpse of life
Vivid reality
I saw a man on the street
Didn't have no clothes or shoes
Here the signs of what they say
Tell me what can we do?
Everybody better
Stop look and listen
Stop look and listen
Stop look and listen
To your heart
The prophets of the times
Are written on street car walls
Can't you see them cryin'?
Can't you hear them call?
Mother Mother
Children still got to grow
Father Father
Where do we go?
Stop look and listen
Everybody better
Stop look and listen
Stop look and listen
To your heart
Space age assures us life will go on
And everybody tryin' to believe
Forget the future think about right now
Somehow seems to be the growin' theme
Prophets of the times
Are written on street car walls
Can't you see them cryin'?
Can't you hear them call?
Mother Mother
Children still got to grow
Father Father
Where do we go?
Stop look and listen

Stop look and listen
Stop look and listen
To your heart
Space age assures us life will go on
And everybody tryin' to believe
Forget the future think about right now
Somehow seems to be the growin' theme
Yeah stop look and listen
Stop look and listen
Stop look and listen
To your heart
Everybody sing
Stop look and listen
Stop look and listen
Stop look and listen
To your heart
Space age assures us life will go on
And everybody tryin' to believe
Forget the future think about right now
Somehow seems to be the growin' theme
You got to stop
Stop look and listen
Everybody better
Stop look and listen
I just wanna say stop
Stop look and listen
To your heart
Can't you help me now
Stop look and listen
Stop look and listen
Stop look and listen
To your heart
Come and help me now
Stop look and listen
Stop look and listen
Stop look and listen
To your heart
Help me one more time
