New Religion

35th & Taylor

Love is beating me
Whisper what you want me to hear
You could show me
Show me what you want me to do
About you, about me
About you, about me
About you, about me
About you, about me

Because everytime you put your hands on me
I find a new religion
I just gotta give my hands up
Because everytime you put your hands on me
I find a new religion
I just gotta give my hands up

What you say to my..
Now I tremble like a leef on a tree
Getting closer now
Closer than I wanted to be
And my eyes roll back and my body sways
We're gonna carry on anyway
Cause it's you, and it's me
Cause it's you, and it's me

Because everytime you put your hands on me
I find a new religion
I just gotta give my hands up
Because everytime you put your hands on me
I find a new religion
I just gotta give my hands up

Because everytime you put your hands on me
I find a new religion
I just gotta give my hands up
Because everytime you put your hands on me
I find a new religion
I just gotta give my hands up

Because everytime you put your hands on me

I find a new religion
I just gotta give my hands up

Give my hands up
Because everytime you put your hands on me
I find a new religion
I just gotta give my hands up
