

# If It Ain't Too Late

Jarell Perry

SO strange to me  
Thought that it was clear to see  
I was glad to leave the move on to better things  
I've returned your gifts  
All those things I never missed  
I said so long but you keep your diamond ring  
But lately you've been running through my mind  
All day asking me why  
I just think about fooling myself, yeah  
I've lived long enough to know  
There's no other place like home  
I could love every girl in the world say there's nobody else  
So if it ain't too late  
Leave the door wide open 'cause I'm coming baby  
Right back to your arms  
If it ain't too late  
I know somehow, someway will find it  
We can make it through the storm  
You got me burning now  
Tryin to turn this car around  
You can't stop me now  
So getting back to you  
I'll do anything I'll doubt your favorite scene  
In reality girl you know the truth is  
You've been running through my mind  
I think got me asking why  
I just can't get out without fooling myself yeah yeah  
I've lived long enough to know  
There's no place like home  
I can love every girl in the world  
See there's nobody else  
Chorus:  
If it ain't too late  
Leave the door wide open 'cause I'm coming baby  
Right back to your arms  
If it ain't too late  
I know somehow, someway will find it  
He can make it through the storm  
2 x  
I'm coming right back  
I never thought that  
I never look back  
But I'ma come back to you hey

I'ma come back to you yeahOh oh oh ohh[2 x Chorus:]
