# Excuse Me

## Sophie Zelmani

Why despair in your eyes
When I try to see you
Don't you know it's beyond me
Just to have you hereSome people would say
You're only dreaming
So how come I feel you
Just about everywhereSo excuse me if I
Say that I could die
For this world
You're showing me nowWhy the doubt in your voice
When I try to tell you
Can't you see me standing
Right beside youSome people would say
It could have been magic
Well, I won't forget the magic
Like I won't forget that daySo excuse me if I
Say that I could die
For this world
You're showing me nowSo excuse me if I
Say that I could die
For this world
You're showing me now
