

Indigo Skies

Digitalism

The spark in your eyes
Tell me you sure.
Though it comes in no surprise
It was never there before If this was a game
would you fight for a prize?
Suddenly swain
Under Indigo light What took us so long
to realise
It's not our sun
It's just summer skies If this was a game
would you fight for a prize?
Suddenly swain
Under Indigo light What took us so long
to realise?
It's not our sun
It's just summer skies What took us so long
to realise?
It's not our sun
It's just summer skies
