

# Lonely Day

## Phantom Planet

I could tell from the minute I woke up  
It was gonna be a lonely, lonely, lonely, lonely day  
Rise and shine, rub the sleep out of my eyes  
And try to tell myself I can't go back to bed  
It's gonna be a lonely, lonely, lonely, lonely day Even though the sun is shining down on me  
And I should feel about as happy as can be, yeah  
I just got here and I already want to leave  
It's gonna be a lonely, lonely, lonely, lonely day  
It's gonna be a lonely, lonely, lonely, lonely day, yeah  
It's gonna be a lonely, lonely, lonely, lonely day Everybody knows that something's wrong  
But nobody knows what's going on  
We all sing the same old song  
When you want it all to go away  
It's shaping up to be a lonely day I could tell from the minute I woke up  
It was gonna be a lonely, lonely, lonely, lonely day  
It was gonna be a lonely, lonely, lonely, lonely day Everybody knows that something's wrong  
But nobody knows what's going on  
We all sing the same old song  
When you want it all to go away  
It's shaping up to be a lonely day I could tell from the minute I woke up  
It was gonna be a lonely, lonely, lonely, lonely day  
It was gonna be a lonely, lonely, lonely, lonely  
Lonely, lonely, lonely, lonely Everybody knows that something's wrong  
(Lonely, lonely, lonely, lonely)  
But nobody knows what's going on  
(Lonely, lonely, lonely, lonely)  
Everybody knows that something's wrong  
(Lonely, lonely, lonely, lonely)  
But nobody knows what's going on  
(Lonely, lonely, lonely, lonely) Oh, oh, oh, oh  
I didn't see  
This lonely day
