Everybody

Hear'say

I was falling through my sleep all night
In a dream I could be with you
Out of nowhere your guiding light shone through
My world keeps turning tearing me apart
Since you've gone all I want is you
How did we never see this was meant to be?
It's true
I wanna tell the world and shout it out
That what we have is real
I know that this is what it's all about
Cos I feel
That everybody
Needs somebody to love
(Be the one tonight)
Just anybody
Won't shine the light that burns
Only you are right
I can't imagine how my life would be
If I spent it without you
Cos everybody needs somebody to love
And I want you
Time together slipping through my hands
Stop it all cos I want more
You are the answer just too far away
You are what my life is for
I wanna tell the world and shout it out
That what we have is real
I know that this is what it's all about
Cos I feel
That everybody
Needs somebody to love
(Be the one tonight)

Just anybody
Won't shine the light that burns
Only you are right
I can't imagine how my life would be
If I spent it without you
Cos everybody needs somebody to love

And I want you
I wanna tell the world and shout it out
That what we have is real
I know that this is what it's all about
Cos I feel
That everybody
Needs somebody to love
(Be the one tonight)
Just anybody
Won't shine the light that burns
Only you are right
I can't imagine how my life would be
If I spent it without you
Cos everybody needs somebody to love
And I want you
That everybody
Needs somebody to love
(Be the one tonight)
Just anybody
Won't shine the light that burns
Only you are right
I can't imagine how my life would be
If I spent it without you
Cos everybody needs somebody to love
And I want you
