

Blind Babe

Avey Tare's Slasher Flicks

Oh I was on a roll when a beautiful sight came
Blind in the sight of a weary mind my my
Little woman with a cane out just sittin fine
On the right of a merry ride by my side
I broke my neck and do a blind babeOh when she come into a place it's a blaze I wanna
Finally get inside and know the things she cried
And when she was a baby child
In the world that made her something made me change
And looking neck and took a blind babeWith a natural walkway she's
Talkin to the street
When she looks into her mind
She moves in front of her feet
Going in and out of my wayBut does she feel it?
Does she feel it?Oh blind babe you can never look me in the eye
But I wanna know the things inside your mind
And I wanna know how you interpret me
So I can think about how it'll allow myself to see (?)
To know the things inside of your brainCause I was on a roll when a beautiful sight came
Blind in the sight of a weary mind my my
Little woman with a cane out just sittin fine
On the right of a merry ride by my side
I broke my neck and do a blind babeWith a natural walkway
She's talkin to the street
When she looks into her mind
She moves in front of her feet
Going in and out of my wayBut does she feel it?
Does she feel it?
