

# A Song About Love

Lee DeWyze

I used to make you cry  
But I haven't smiled since you left  
Can you undo goodbye?  
It's a word I wish I could forget You told me you love me and I try to move on  
But it's hard to get up when you fall  
So I wrote a song about love but it's nothing at all And it was you who took the blame  
Even though we both knew who was wrong  
I'm calling out your name  
Every time I'm singing this song  
'Cause it's over, yeah, it's over You told me you love me but it's time to move on  
It's so hard to get up when you fall  
So I wrote a song about love but it's nothing at all 'Cause it's over, yeah, it's over You told me you love me and I  
try to move on  
It's so hard to get up when you fall  
So I wrote a song about love  
And it's sad 'cause it won't be enough  
So I wrote a song about love but it's nothing at all
