

# Room Without A View

## The Butterfly Effect

Watching and waiting  
A room without a view  
Searching through surgery  
For something lost inside you  
Stand me up and push me forward  
Staring back in front of me

Where were you hiding?  
I was blind but now I see  
Where you were hiding  
For so long  
Was I so wrong?  
Or another casualty?  
Where were you hiding?
