

# Life's Too Short (Acoustic)

## Scouting for Girls

Now i know we just met  
But i'll never forget the way you tripped me  
You tripped me up in love  
You took my by surprise  
And she knows that i love  
Everything that she does because shes stunning  
She keeps me mesmerised  
I fell into her deep blue eyes  
Come on come come on just kiss me  
I'll show you how to start  
Your head says no but don't you listen  
Just feel it in your heart  
Come on come on come on just kiss me  
Who cares if we get caught  
Cause we both know  
That lifes just too damn short  
Don't be scared, lets not wait  
I don't wanna hesitate  
Just come and kiss me  
You make the sun shine brighter  
Set my world on fire  
And i know, we'll be fine  
Even if you take your time, i'd wait forever  
Cause you make my heart sing  
Just like a choir  
Come on come come on just kiss me  
I'll show you how to start  
Your head says no but don't you listen  
Just feel it in your heart  
Come on come on come on just kiss me  
Who cares if we get caught  
Cause we both know  
That lifes just too damn short  
Can you hear my heartbeat darling?  
Louder than an army marching on  
Can you feel my heartbeat darling?  
Come on come come on just kiss me  
I'll show you how to start  
Your head says no but don't you listen

Just feel it in your heart  
Come on come on come on just kiss me  
Who cares if we get caught  
Cause we both know  
That lifes just too damn short  
(Come on come on come on just kiss me)  
Lifes just too damn short  
(Come on come on come on just kiss me)  
Lifes just too damn short  
(Come on come on come on just kiss me)  
Lifes just too damn short  
(Come on come on come on just kiss me)
