

There's No Solution (acoustic)

Sum 41

Maybe nothing else will ever be so clear
Well maybe that's only my fear
And just for one day I wish I could disappear
Just take me far from here
Maybe I'd find out nothing new
Maybe I'd end up just like you There's no solution
(to) give me truth to my conviction
Is my own confusion
Reality or fiction
Am I out of my mind? The constant pressure that keeps hanging over me
It makes me feel so empty
Its more than anything that I could ever be
What else could you take from me
Its getting harder to relate
Don't want to make the same mistake There's no solution
(to) give me truth to my conviction
Is my own confusion
Reality or fiction
Am I out of my mind? It took me so long to find out
Its right there in front of me
Too close to see
What thought was true
I see right through
What's killing you There's no solution (i can't see)
(to) give me truth to my conviction
Is my own confusion (that I feel)
Reality or fiction
Am I out of my mind? So maybe nothing else will be so clear
Or maybe that's only my fear (am I out of my mind)
And just for one day I wish I could disappear
And take me far from here (am I out of my mind)
