

# Glory to You

[Aaron Shust](#)

Great God of might, great God of wonders  
Giver of life, giver of grace  
Creator of everything before us  
You had me in mind before the stars were in place Your love surpasses all by far  
We're praising You for all You are The reason we're here and the reason we sing  
Is to thank You, oh God and give praise to the King  
We lift up our hands and we lift up our eyes and sing  
You are holy You are holy Father of love, Father of mercy  
What have I done that You would think about me?  
You've taken my shame, You've taken my sorrow  
Replaced them with life and life abundantly Your love surpasses all by far  
We're praising You for all You are The reason we're here and the reason we sing  
Is to thank You, oh God and give praise to the King  
We lift up our hands and we lift up our eyes and sing  
You are holy The reason we're here and the reason we sing  
Is to thank you, oh God and give praise to the King  
We lift up our hands and we lift up our minds  
And we pray that all we do would bring glory to You You can see inside my heart  
You can see inside my mind  
So strip away the things  
That leave me deaf and blind The reason we're here and the reason we sing  
Is to thank You, oh God and give praise to the King  
We lift up our hands and we lift up our eyes and sing  
You are holy The reason we're here and the reason we sing  
Is to thank you, oh God and give praise to the King  
We lift up our hands and we lift up our minds  
And we pray that all we do would bring glory to You Would bring glory to You  
You are holy
