

Light Years Away

MoZella

It's almost like you had it planned
It's like you smiled and shook my hand
And said "Hey, I'm about to screw you
Over big time"
And what was I supposed to do
I was stuck in between you
In a hard place
We won't talk about
The hard place But I don't blame you anymore
Thats too much pain to store
It left me half dead
Inside my head
And boy, looking back I see
I'm not the girl I used to be
When I lost my mind
It saved my life It's how you wanted it to be
It's like you played a joke on me
And I lost a friend in the end And I think that I cried for days
But now that seems light years away
And I'm never going back
To who I was 'Cuz I don't blame you anymore
Thats too much pain to store
It left me half dead
Inside my head
And boy, looking back I see
I'm not the girl I used to be
When I lost my mind
It saved my life I think I cried for days
But now that seems light years away
And I'm never going back
To who I was 'Cuz I don't blame you anymore
Thats too much pain to store
It left me half dead
Inside my head
And boy, looking back I see
I'm not the girl I used to be
When I lost my mind
It saved my life That life seems like
Light years away, light years away And that life seems like

Light years away, light years away
