

# Fire

## Milk Inc.

Overload,  
one more push and I'll explode  
Breakin' news:

I am this close to blowing a fuse  
If you can't take the flames, then you shouldn't play games  
Can't take the heat? Pack your bags and retreat.

If you can't take the flames, then you shouldn't play games  
Can't take the heat? Pack your bags and retreat.  
You're playing with fire, fire, burning inside of me  
You're playing with fire, fire, burning inside of me  
Haven't you learned ?

Playing with fire, you will get burned.  
You're playing with fire, fire, burning inside of me  
You're playing with fire, fire, burning inside of me  
Haven't you learned ?

Playing with fire, you will get burned.  
Red Alert,  
stand too close and you'll get hurt.

Don't you know

That warned you to let it go  
If you can't take the flames, then you shouldn't play games  
Can't take the heat? Pack your bags and retreat.

If you can't take the flames, then you shouldn't play games  
Can't take the heat? Pack your bags and retreat.  
You're playing with fire, fire, burning inside of me  
Haven't you learned ?

Playing with fire, you will get burned.  
You're playing with fire, fire, burning inside of me  
You're playing with fire, fire, burning inside of me  
Haven't you learned ?  
Playing with fire, you will get burned.
