# Vessel In Vain

## Smog

I cant be held responsible for the things I say
For I am just a vessel in vain
And I cant be held responsible for the thing I see
For I am just a vessel in vainNo boat out on no ocean
No name there on no hoard
And its not a strain at all to remember
Those that Ive left behind
Theyre all standing right here beside me now
And most of them with a smileMy ideals have got me on the run
Towards my connection with everyone
My ideals have got me on the run
Towards my connection with everyoneSuch free reign
For a vessel in vain
