Happy When

Braids

Sit down with emotion
Take the time to feel it
Like a cloud across the mind
Never holding on to
Let it all just belong byThe summer haunts and I fall down
How I'm looking for all will be gone
The summer haunts and I fall down
I'm not looking for a pick up
Message, message, message
Message, message, messageI want to love myself
Out in the field I'm kissed by the sun
Away from everyone
I want to catch my breath
I've been slowing, get that all abouts
Speaking of empty things just to feel the air
Do not hear my screamI want to find myself
Down the road like a fog walk
Wave at two passers by
They wave back at me
I feel like somebody
I want to make a mess
I've been on the road with that loss
With my phone too much
To try and feel in touch
With those I don't see enoughAnd that thought be happy when
This happens so that becomes
Oh it is finished and I am done
Oh, done idea
And that thought be happy when
This happens so that becomes
Oh it is finished and I am doneI fought around 'til I fell down
Blood upon my knees as I kneel down
I fought around 'til I fell down
Blood upon my knees as I need him nowI fought around 'til I fell down
Blood upon my knees as I kneel down
I fought around 'til I fell down
Blood upon my knees as I need him nowAnd I'll be happy when
