

The Drug Is Football

Vanilla Muffins

What's the reason for your life, It's a deadly poisoned
knive
when you go into the town just to see what's down
every day is like the other keep your fear undercover
It's the only way to pay for you addictionWe live in one ghetto
we're not better boys
the drug is footballwe live in one ghetto
we got deadly bored
but our drug is football
You're not the only one to think you had no fun
but it ain't no really good cause just for you to end
it
It could be the start of love take today without a
drug
It's like the end of a beautiful friendship
We live in one ghetto
we're not better boys
the drug is footballwe live in one ghetto
we got deadly bored
but our drug is football
