

# Predators

## Iron Savior

[Words & Music by Sielck][Hey you shadow bastards! We'll blow your asses out of space and time!

Understand?][They came to take our land and lifes

To terminate our race

All across the galaxy

They leave a deadly traceEmerged from Hell - an evil spell

The universe is cursed

They came to please and satisfy

Their everlasting thirstWe will stand

Together til the end

Into the fire we will ridePredators - on the hunt for prey

Predators - come to make our dayYou gonna payWe warn you now

You things up there

It's time to understand

We'll blow you into nothingness

Whatever you may sendWe will stand...Predators - on the hunt for prey...[Solo Piesel]Onto the battlefield

Onto the firing line

We gonna blow your asses

Out of space and time

Yeah!Predators - on the hunt for prey...You gonna pay - some day
