

# Drive Away

## Sawyer Brown

Pack your bags, it's time to go  
The clock down town runs way to slow  
Daddy say's, "I'll have to wait"  
But all we got to do is drive away Drive away you and me  
We'll blow this town and we'll find our dream  
"Where we'll stop?" It's hard to say  
We'll leave a trail smokin' when we drive away  
We'll leave a trail smokin' when we drive away With me the lead and you the star  
We're way out front in a faster car  
Like two dots fading on a silver screen  
The credits rolling as we leave Drive away you and me  
We'll blow this town and we'll find our dream  
"Where we'll stop?" It's hard to say  
We'll leave a trail smokin' when we drive away  
We'll leave a trail smokin' when we drive away Call ahead and tell 'em that we're comin'  
We'll keep the motor runnin' from now on Drive away you and me  
We'll blow this town and we'll find our dream  
"Where we'll stop?" It's hard to say  
We'll leave a trail smokin' when we drive away  
We'll leave a trail smokin' when we drive away
