

# Skindiving

James

Put your hand inside this dream  
Tip the scale, release this dream  
Going down on a rolling wave  
I'll pack the flag before I hit the ground  
I can hear your thoughts arise  
>From these depths to creamy skies  
Driftin round, the waters cool  
Let the waves cover you  
The surface storm shows nothing free  
The surface is calm the water is clear  
The water's clear
