Nothing Like You

Chasen

Take a storm and watch, sing
Take the thunder create a scene
Take a light and throw it across the sky
For the whole world to seeTake the ocean, take the tide
Sweep it in here on beaches white
Wipe my eyes and let me see
The beauty of your sunriseThere is nothing like you
There is nothing underneath the sun
Without you, you are all and all is good
There is nothing like youTake a branch and watch it break
Take the snow and watch it fall
As the green begins to grow
Lord Your growing my soul
