

# Silver & Gold

Neil Young

Workin' hard every day  
Never notice how the time slips away  
People come, seasons go  
We got something that'll never grow oldI don't care if the sun don't shine  
And the rain comes pourin' down on me and mine  
'cause our kind of love  
Never seems to get old  
It's better than silver and goldI used to have a treasure chest  
Got so heavy that I had to rest  
I let it slip away from me  
Didn't need it anyway.  
So I let it slip away.I don't care if the sun don't shine  
And the rain comes pourin' down on me and mine  
'cause our kind of love  
Never seems to get old  
It's better than silver and gold
