

# Simple Song

by SHARK (The Rebels.biz)

It was warm, now it's cold  
It was young, now it's old  
Love was here, now it's gone

Simple song

Once she did, now she don't  
Once we tried, now we won't  
How could love go so wrong?

Simple song

Oh, it don't take much to say it  
And anyone can play it  
All you got to do is live it

And anybody can  
Simple tune, simple words  
Simple me, simple her  
She was here, now she's gone

Simple song

Oh, it don't take much to say it  
And anyone can play it  
All you got to do is live it  
And anybody can
