

All I Need (Feat. SPZRKT)

Noname Gypsy

[Bridge: Noname Gypsy]

Noname off the drugs

Noname quit the weed

Telefone delay

Love is all i need

My honeybee are black and green

Majestic queen

That's for my homies; my omi say love

This for my homies; my omi say love

This for my homies; my omi say

[Verse 1: Noname Gypsy]

Like maybe I'm an issue after autumn

And all of the fallen callers and ringers

From singers hitting my telly

And telly paging my beeper

The reefer got me like "whoa, slow down"

I need a minute for minute's sake, a dinner plate

A casanova with catalogs of his dinner dates

Make me feel special, Jay Electro-Soul

I need a nigga to follow me to the rabbit hole

And fall in where I fall in

I'm balling I'm on control

I'm balling I'm on control

[Pre-Hook: SPZRKT]

You say you see a way that

I can not see, then say that

I never knew it all

I'm just trying not to fall

And now I'm chasing patience

I need it for greatness

Look at this time I'm wasting

Mad at how it ended

Really, If I tell the truth about it[Hook: SPZRKT]

If it's not how I want it

It's just how I need it (x4)

[Verse 2: Noname Gypsy]

Everything is everything

A cigarette for wedding ring

Tell me that you love me and love me tomorrow

The matrimony catalyst for secondary
Get to know me in Chicago
How I go where you stay
Unorthodox paradox in a pair of Doc's
With an overbite, oversight to a married clock
Happy go lucky was a time, you and I
Happy go lucky was a time, do or die
You remind me to love myself for the principle
For the kid inside, til the end of time
Happy go lucky was a time, umm okay[Bridge]
