

Before the War

Halloween

Come take a look up
To the constelations
Take the book of god
You will find your relations
If you understand
You will know the solution
Things will fall back
To the new constitutionI'm a son of a distant future
I'm the last of the seven troopers
And I came here for the 7th warI'm a child of the stars
The blaster of the godsAnd I have seen it all before
Before the war
Cold, hearted earth
I'm the master of the universe
And I have seen it all before
Before the warNature sets a limit to
Your millenary
Turning every place into
A cruel mean scenery
All will get a chance to shun
The holy fire
But you will be few getting
Under the wireI'm a son of a distant future
I'm the last of the seven troopers
And I came here for
The 7th warI'm a child of the stars
The blaster of the gods
And I have seen it all before
Before the war
Cold, hearted earth
I'm the master of the universe
And I have seen it all before
Before the warMind the 7th war, mind the 7th war
Yes I came here for the 7th warI'm a child of the stars
The blaster os the gods
And I have seen it all before
Before the war
Cold, hearted earth
I'm the master of the universe

And I have seen it all before
Before the war
