What You Mean Tonight

Stan Bush

Never occurred to me how my restless ways will make them feel
I never stayed around too long
Just like the autumn leaves,
As soon as the seasons change and Id be gone
Cuz I lived for the moment
My heart no one could own it
YeahNever thought the whole world could be lonely
Everything that seemed so wrong is feeling so right
I know this time I want to stay
If I could only find the words to say what you mean tonightSeems like a part of me has to keep on rolling like a storm
Another face another day
Ohhhh
Cuz Ive seen too many things
Burned so bright that slowly fade away
Till I lived for the moment
True love Ive never known it
YeahNever thought the whole world could be lonely
Everything that seemed so wrong is feeling so right
I know this time I want to stay
If I could only find the words to say what you mean tonightLife could rock our boats so strong
Its only me, Ive had it all
Now I cant help but feel everythings changedNever thought the whole world could be lonely
Everything that seemed so wrong is feeling so right
I know this time I want to stay
If I could only find the words to say what you mean tonight
