Sunflower (Instrumental)

Younha

Don't blankly stand there with yesterday's pain
Don't be in pain because you're lonely
Is this the right path that I've been dreaming of?
I looked back at my nervous selfWhen I find that path
All I be able to smile?
There's a lot that I want
The painful daysThings can be different from yesterday
Don't think that you're alone
The past painful memories
Are not important anymoreSome day, when the tears stop
The hard times will tell me
Thank you, have strength
That everything will be alrightLalala
I'm gonna cherish myself more
Lalala
I love myselfWhat did I want?
I looked back at my nervous selfThings can be different from yesterday
Don't think that you're alone
The past painful memories
Are not important anymoreSome day, when the tears stop
The hard times will tell me
Thank you, have strength
That everything will be alrightI won't cry anymore
It's still not too lateSome day, I'm gonna start again
I'm so thankful
I hope I can move myself
I'm telling my future
Not to worryLalala
I'm gonna cherish myself more
Lalala
I love myself
