

# Courtyard

## Watashi Wa

Oh, my girl  
You're still in the middle  
But only the middleFor once, my dear  
You miss by a little  
But only a littleI don't know which way to standOoh, Ooh, Ooh  
Ooh, Ooh, Oohoh it's clear just look out a window  
but only the window  
i don't know how long to stay here, something's waking up  
and i won't drive what you used to loveyeah the old days i think they're coming back  
but i don't mind  
ooh, ooh  
saw you in a park  
of a courtyardand i love you, but i'd never tell you that
